
CAKUT micronutrient colocalization, all 1285 colocalized genes
vitamin A
keto diet
vitamin B12
iron
vitamin B6
folic acid
vitamin C
zinc
vitamin D
vitamin E
extracellular space
extracellular region
tissue development
tube development
anatomical structure morphogenesis
cell surface receptor signaling
system development
response to endogenous stimulus
multicellular organism development
animal organ development
cell population proliferation
regulation of cell population
positive regulation of develop
cellular response to endogenous stimulus
Interleukin-4 and Interleukin-13
platelet alpha granule
circulatory system development
vasculature development
tube morphogenesis
response to chemical
response to stimulus
enzyme-linked receptor protein
folic acid
iron
keto diet
vitamin A
vitamin B12
vitamin B6
vitamin C
vitamin D
vitamin E
zinc
CAKUT seed
micronutrient seed
enriched term
