Dravet syndrome and micronutrients: project overview

1 Gene sets

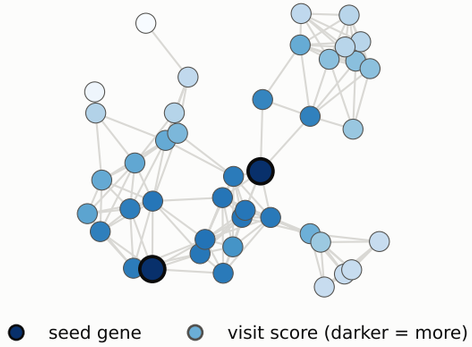

Dravet against 11 gene sets:
10 micronutrients and the keto diet

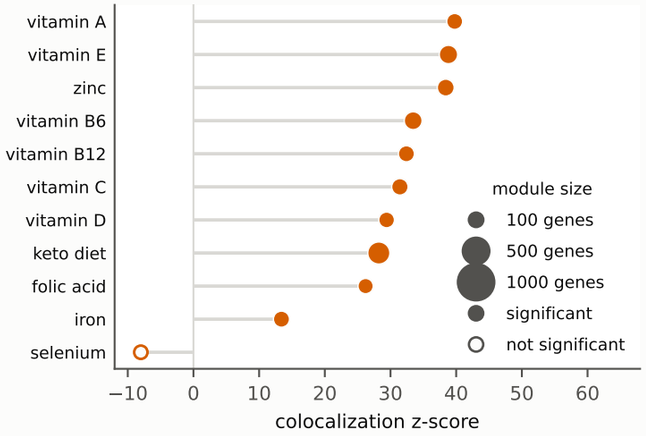

brain network

2 Propagation and colocalization

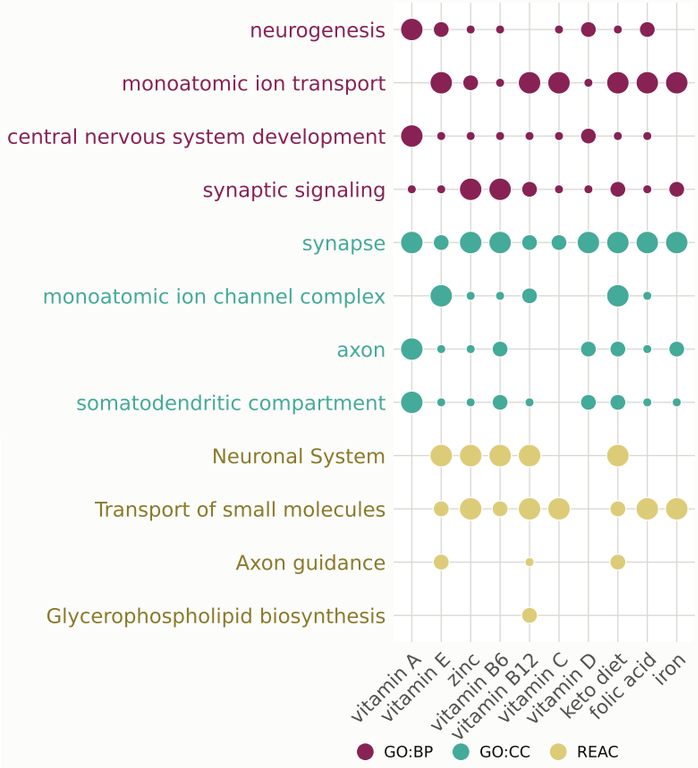

Random walk with restart from each seed set,
NetColoc Python package; 11 Dravet pairs

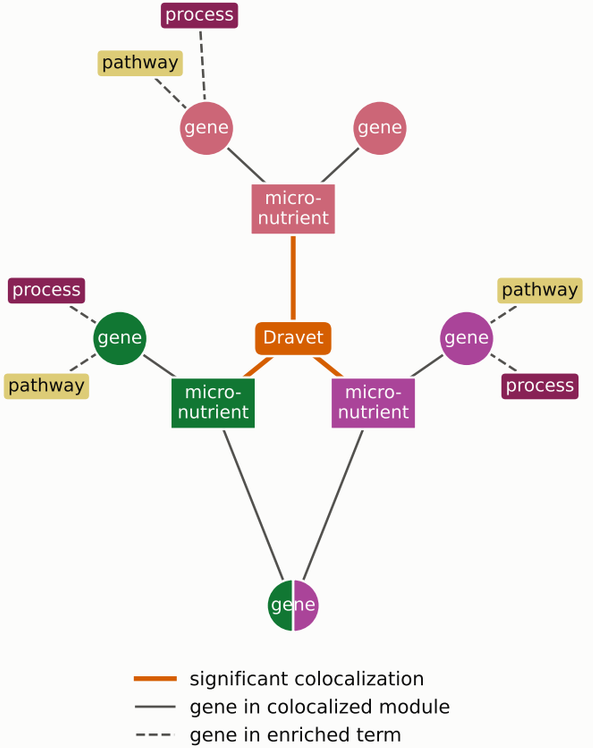

3 Enrichment

g:Profiler on the colocalized genes of each
significant pair, collapsed by orsum

4 Knowledge graph

CAKUT (kidney network) was used as validation of the workflow.
